

ZYPHERIXLABS

Websites & Digital Systems, Done Properly

A technology studio building websites, e-commerce systems, and AI-integrated tools for businesses across Zambia, Zimbabwe, and South Africa.

Full ownership of delivery

No outsourcing. Every build is handled by our own team, start to finish.

Built for real business use

Fast, mobile-first, and designed to turn visitors into customers.

End-to-end management

Domain, hosting, deployment, and support — handled, not handed off.

Regional understanding

We know local payment methods, connectivity, and customer expectations.

Packages at a Glance

PACKAGE	GUIDE PRICE	BEST FOR
Starter	R1,000 – R2,500	A clean, professional presence with a way for customers to reach you
Standard	R3,000 – R4,800	Online ordering, product catalogue, and a system to manage it
Complete	R5,000 – R7,000	A fully custom-branded system built to scale

Every project is scoped individually — your final quote reflects exactly what your business needs, nothing more. Domain, hosting, and maintenance are billed separately at cost; see the full Pricing Brief for detail.

Our Process

Discovery → Design → Development → Testing → Deployment. Every site is checked for mobile responsiveness, page speed, accessibility, and security before it goes live.
